CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
STATE WATER RESOURCES CONTROL BOARD

DIVISION OF WATER RIGHTS

SMALL DOMESTIC USE REGISTRATION

CERTIFICATE NO. R 714

Application D31590R of **Roland Wentzel**
 Barbara Wentzel
 P.O. Box 388
 Philo, CA 95466-0045

filed with the State Water Resources Control Board (State Water Board) on **September 6, 2005** meets the requirements for registration of small domestic use specified in Article 2.7 (commencing with section 1228) of Chapter 1 of Part 2 of Division 2 of the Water Code. The appropriation is subject to the following conditions.

1. Source:

Tributary to:

Unnamed Stream

Rancheria Creek thence

Navarro River

within the County of **Mendocino**.

2. Location of Point of Diversion: By California Coordinate System of 1927, Zone 2	Point is within (40-acre subdivision)	Section	Township	Range	Base and Meridian
North 505,760 feet and East 1,591,200 feet	SE¼ of NE¼	30	14N	14W	MD

3. Purpose of Use:	4. Place of Use:	Section	Township	Range	Base and Meridian	Acres
DOMESTIC	SE¼ of SE¼	19	14N	14W	MD	

The place of use is shown on a map on file with the State Water Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 1.2 acre-feet per annum to be collected from December 15 of each year to March 31 of the succeeding year. The capacity of the reservoir shall not exceed 1.2 acre-feet which is the stated capacity shown in the registration.
6. Appropriation of water pursuant to this registration shall be made in accordance with the information set forth in the completed registration form as to source, location of point of diversion, purpose of use, place of use, and quantity and season of diversion. This information is reproduced as conditions 1 through 5 of this certificate.
7. The appropriation registered herein shall be limited to the use of water in houses, resorts, motels, organization camps, campgrounds, and other similar facilities, including the incidental watering of domestic stock for family sustenance or enjoyment, the irrigation of not to exceed one-half acre of lawn, ornamental shrubbery, or gardens at any single establishment, and the human consumption, cooking, and sanitary needs at campgrounds or resorts. Also, any storage of water registered herein may include impoundment for incidental aesthetic, recreational, or fish and wildlife purposes.
8. This appropriation is limited to the season of diversion specified in condition 5 herein. If such specified season is less than the actual season of need, an alternative supply of water, or other valid right, shall be utilized for all uses outside of the season registered herein.
9. Pursuant to California Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this registration, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.
10. Registrant shall allow representatives of the State Water Board, and other parties as may be authorized from time to time by the State Water Board, reasonable access to project works to determine compliance with the terms and conditions of this registration.
11. This appropriation is subject to prior rights. Registrant may be required to curtail diversion or release water stored during the most recent collection season should diversion under this registration result in injury to holders of legal downstream senior rights. If a reservoir is involved, registrant may be required to bypass or release water through, over, or around the dam. If release of stored water would not effectively satisfy downstream prior storage rights, registrant may be required to otherwise compensate the holders of such rights for injury caused.
12. If the registrant does not own the point of diversion, this registration shall not be construed as conferring upon the registrant right of access to the point of diversion.

13. To the extent that water available for use under this registration is return flow, imported water, or wastewater, this registration shall not be construed, as giving any assurance that such supply will continue.
14. Diversion works shall be constructed and water applied to beneficial use with due diligence.
15. No work shall commence and no water shall be diverted, stored or used under this certificate until registrant has received a stream or lake alteration permit from the California Department of Fish and Game (DFG). Compliance with the terms and conditions of the permit is the responsibility of the registrant. If a permit is not necessary for this project, the registrant should retain a written waiver from the DFG.
16. In compliance with section 5937 of the Fish and Game Code, if storage or diversion of water under this registration is by means of a dam, registrant shall allow sufficient water at all times to pass through a fishway or, in the absence of a fishway, allow sufficient water to pass over, around, or through the dam to keep in good condition any fish that may be planted or exist below the dam; provided that, during a period of low flow in the stream, upon approval of the DFG, this requirement will be satisfied if sufficient water is passed through a culvert, waste gate, or over or around the dam to keep in good condition any fish that may be planted or exist below the dam if it is impracticable or detrimental to pass the water through a fishway. In the case of a reservoir, this provision shall not require the passage or release of water at a greater rate than the unimpaired natural inflow into the reservoir.
17. The facilities for diversion under this registration shall include satisfactory means of measuring and bypassing sufficient water to satisfy downstream prior rights and any requirements of the DFG.
18. No construction shall be commenced and no water shall be diverted under this registration until all necessary federal, state, and local approvals have been obtained, including obtaining and complying with any waste discharge requirements from the appropriate California Regional Water Quality Control Board.
19. This registration does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2097) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the registrant shall obtain authorization for an incidental take prior to construction or operation of the project. Registrant shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this registration.

20. This registration is subject to the submittal of a report of water use and satisfactory renewal of the registration, on forms to be furnished by the State Water Board, including payment of the then-current renewal fees prior to the expiration of each five-year period following the date of first filing the completed registration.
21. The point or points of diversion and the place of use registered herein may be changed by filing a completed amended registration form with the State Water Board, including payment of the then-current registration fee. Such change shall not operate to the injury of any legal user of the water involved.
22. The appropriation registered herein shall be totally or partially forfeited for nonuse if the diversion is abandoned or if all or any part of the diversion is not beneficially used for a continuous period of five years.
23. The appropriation registered herein is subject to enforcement, including but not limited to revocation, by the State Water Board if 1) the State Water Board finds that the registrant knowingly made any false statement, or knowingly concealed any material fact, in the registration; 2) the registration is not renewed as required by the conditions of this certificate; or 3) the State Water Board finds that the registrant is in violation of the conditions of this registration.

Mr. Roland Wentzel
Post Office Box 388
Philo, CA 95466-0045

Dear Mr. Wentzel :

Registration of a Small Domestic Use Appropriation by
Mr. Roland Wentzel from an Unnamed Stream Tributary to Rancheria Creek,
Tributary to the Navarro River, Thence the Pacific Ocean,
Philo, Mendocino County

Department of Fish and Game (DFG) personnel have visited the site and reviewed your State Water Resources Control Board (SWRCB) registration application dated February 20, 2004, for an appropriation for small domestic use.

The existing point of diversion (POD) is located on an unnamed stream tributary to Rancheria Creek, thence the Navarro River near the town of Philo, Mendocino County. The on-stream reservoir, Reservoir 3, is composed of an earthen dam with an approximate length of 120 feet and a height (toe to spillway) of 8 feet. The earthen dam impounds approximately 1.2 acre-feet (af) of water with a surface area of 0.22-acre and a maximum water depth of 6 feet. The registration requests to divert 1.2 af/year of water from December 15 to March 31 the following year for domestic purposes (one-half acre of lawn and gardens).

Pursuant to Section (§) 1228.3 of the State Water Code, registration of appropriations for Small Domestic Use requires consultation with DFG. DFG will not place any additional bypass flow requirements on the current facility based on the described season of diversion, the fact that the current use is basically non-consumptive and the location and size of the reservoir. However, DFG requires notification should any changes be made to reservoir in the future.

Conserving California's Wildlife Since 1870

Mr. Roland Wentzel

The issuance of this letter by DFG does not constitute a valid water right. SWRCB must first issue you a valid Small Domestic Use Registration certificate before you may divert water. Under State Water Code § 1052, the diversion and use of water without a valid basis of right is a trespass against the State of California and is subject to enforcement action by SWRCB.

This letter may be subject to modification or cancellation by DFG should facts warranting such action come to light at a later date or if the purpose of use changes. If you have questions regarding these conditions, please contact Mr. Jeremy Sarrow, Environmental Scientist, at (707) 944-5573; or Ms. Linda Hanson, Staff Environmental Scientist, at (707) 944-5562.

Sincerely,

Robert W. Floerke
Regional Manager
Central Coast Region
